RATE CODE 4 - Irrigation

3-Phase 1-Phase

30	80	-No Control	
		Horsepower Charge	\$84.50 per HP
		Energy Charge:	
		400 X HP	\$0.0929 per kWh
		All over 400 x HP	\$0.0826 per kWh
31	81	-One Day Per Week Control Plus Sunday	
		Horsepower Charge	\$58.00 per HP
		Energy Charge:	
		300 X HP	\$0.0969 per kWh
		All over 300 X HP	\$0.0696 per kWh
34	84	-Two Days Per Week Control Plus Sunday	
		Horsepower Charge	\$42.00 per HP
		Energy Charge:	
		275 X HP	\$0.0969 per kWh
		All over 275 X HP	\$0.0696 per kWh
37	87	-Three Days Per Week Control Plus Sunday	
		Horsepower Charge	\$35.00 per HP
		Energy Charge:	
		250 X HP	\$0.1029 per kWh
		All over 250 X HP	\$0.0696 per kWh
32	82	-Total Control – Daily Plus Sunday	
		Horsepower Charge	\$25.00 per HP
		Energy Charge:	
		225 X HP	\$0.0899 per kWh
		All energy over 225 X HP	\$0.0696 per kWh

New connections made after June 1 and before September 30 (load control season) will pay the respective HP charges or annual minimum as set forth in the rates. KWh's used between September 30 and June 1 will be billed at the off-season rate.

LINE EXTENSION

The District will build single-phase or three-phase when necessary per District's Line Extension Policy. New consumers will be required to sign a five-year contract.

Load management contracts must also be signed on all motors with a capacity of 20 horsepower or above. Only Rates 31, 32, 34, 37, 81, 82, 84, and 87 apply to the Load Management Contract.

Irrigation customers who have motors with less than 20 horsepower may come under a control rate by paying a \$300.00 one-time fee for the District's control equipment. The equipment will remain the property of the District and will be maintained by the District at no charge.

TAMPERING

If physical inspection reveals that any consumer has disconnected, by-passed or tampered with the District's load management equipment to make it inoperable, the District will charge the consumer the no control rate for the entire season and payment must be received within five (5) days of notification or the service will be disconnected without further notice. Cost of repair or replacement will be billed to the customer.

PRODUCTION COST ADJUSTMENT CHARGE

In case the rate under which the District purchases power at wholesale is adjusted in accordance with fuel and cost of service adjustment provisions in District's wholesale power contract, the foregoing energy charges may be adjusted by multiplying the consumer's kWh usage by the Production Cost Factor.

TERMS OF PAYMENT

Energy charges are due and payable in compliance with procedures outlined in Board Policy 469.
