

THE MPPD MINUTE

November
2024

Brandon Spatz and Steve Salas perform maintenance on transmission line.

Tips for a Safe and Efficient Holiday Season

- Use smaller appliances like slow cookers instead of the oven.
- Lower the thermostat when hosting friends and family.
- Never leave unattended candles burning.
- Decorate with energy-saving LED Lights and use timers to control the amount of time the lights are on.
- When decorating, inspect all light strands and cords for damage.
- Add caulk or weatherstripping to seal air leaks around leaky doors and windows.
- Bake several dishes at the same time to reduce energy use from your oven.
- Ensure all smoke alarms are in working order.
- Turn off lights and unplug electronics such as chargers when not in use.
- Watch out for overloaded outlets to protect your home.
