

**POSITION OPENING**  
**Field Engineer**  
McCook Public Power District  
McCook, NE

McCook Public Power District will be taking applications for a Field Engineer.

**RESPONSIBILITY:** The primary responsibility of this position will be to plan and stake new & upgraded services for consumers, help plan system upgrades and improvements for budget purposes, prepare necessary staking sheets and perform drafting functions as needed, easements and permits to initiate required construction, work with all entities to complete jobs, maintain system mapping and will assist with warehouse yard, material and inventory. This position will report to the Engineering Manager.

**SKILLS:** In addition to those abilities and skills required of a Journeyman Lineman, the Field Engineer must be able to communicate with all internal departments and external entities, have excellent organization skills, a solid understanding of RUS specifications/construction units, and be able to interpret a staking sheet. Applicant should possess above average computer skills, especially with GIS applications and mapping software along with knowledge of surveying and ability to work with a transit.

**QUALIFICATIONS:** A two-year Associates degree in related field is required. Minimum of 5 years electric construction with an electric utility required. Closely related progressive job experience and specialized training may substitute for the education requirement.

**WAGE:** The wage will depend on experience and qualifications.
